

## **FOR STUDENTS**

### **Introduction -**

The 'STUDENTS section' is brought to you by Charak Pharma Pvt Ltd.

This page is exclusively designed for students of Ayurvedic stream. Charak Pharma Pvt. Ltd. has a team of experts who have carefully designed and structured the information on this website. We have qualified Ayurvedic doctors on board who carefully monitor the content that goes online.

The information on this section is aligned with the syllabus guidelines of the CCIM, the central government body in India.

### **Objectives:**

**“As you learn, you grow more dendrites and synapses and increase your network of information”.**

---

The objectives can be divided in the following sections

#### Education -

- To give Ayurvedic medical students an effective technique of learning and make them independent learners of the Ayurvedic system of medicine.
- To help them co-relate pathologies with modern sciences to help them gain confidence in diagnosis and line of treatment
- To give them high quality question banks aligned with their curriculum so they can assess themselves effectively

#### Career Guidance -

- To give an overview of opportunities that lie ahead of B.A.M.S and M.D
- To share experiences of various success stories post becoming an Ayurvedic doctor. This can help students discover what it is to be pursuing a certain career path and making an informed choice for themselves
- To list the various courses and trainings that can be undertaken post B.A.M.S

#### Student Participation -

- To give students a platform to post questions on the material they have read. Promote student discussions
- Give students a voice by encouraging various competitions like essay writing, article writing, quizzes etc.
- Gain student feedback to keep us updated with what students need and help us better our website.

## **Features**

**Work Smart** - Focus your efforts topic by topic so you can target your learning on your weak areas

**Work with Peers** – Quizzes, competitions and student forums let you compete against your peers while testing your knowledge. They also help broaden your network and help you stay updated and informed. Healthy student discussions encourage better understanding of a topic.

**Question Bank** – Our question bank contains past years' board papers for every subject, practice questions for all types of questions, viva questions, practical exam questions. These clinically rich case problems test your knowledge; whilst answers, explanations and further reading links improve your learning. Written by our team of specialist authors, our question banks give you access to relevant, regularly updated questions based on your curriculum giving you a resource that is closely aligned to your exam.

**Compete and Win** – Students are welcome to compete in various competitions and quizzes put up on the website. Check out the interactive section, upload your entry and win prizes.
