

Swasa Roga – Let us understand this disease condition as we did for Prameha, using six honest servants.

Swasa Roga samprapti as explained in Charak Samhita is as follow:

Shlok

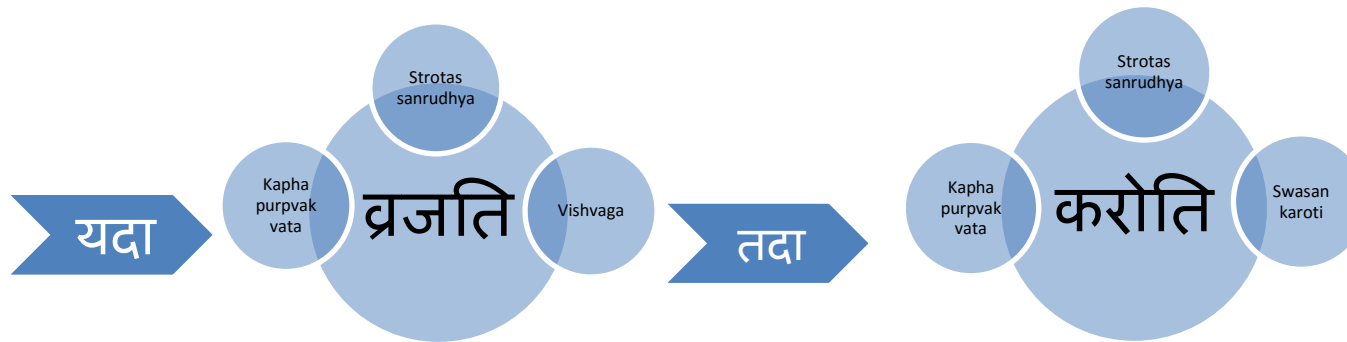

यदा स्रोतांसि संरुध्य मारुतः कफपूर्वकः ज

विष्वग्ब्रजति संरुद्धस्तदा श्वासान् करोति सः जज१७जज

चरकसंहिता । चिकित्सास्थानम् १७ । हिक्काश्वासचिकित्सितम्

Vata when vitiated obstructs the respiratory tract due to excessive Kapha formation; the two together engulf the tract and cause a serious obstruction in the airways making it go all about or everywhere leading to breathlessness.

- This pattern of shlok has two verbs viz. ब्रजति and करोति
- The shlok can be well depicted as follows where karta is 'kapha purvaka vata'

Here are two verbs vrajati and karoti in the shlok.

Who – Kapha purvaka vata

What – Strotas sanrudhya

How – Vishwag vrajati

Where – Pranavaha strotas,

Why – Due to hetusevan
